

Antigua Occupancy Figures

Please find below the aggregate occupancy figures. The average occupancy worked out to 52.5%, better than the three previous years. October sees the reopening of several properties and as such gives a varying sample size. Comparison between years is difficult with some hotels up and others down. An upturn in occupancy in one of the large midrange resorts greatly influenced the island wide result, which otherwise would have been in line with 2015.

October 2016

%	No of Hotels	Room Sample
52.5%	31	87150
53.6%	7	57412
46.6%	9	16660
55.4%	15	13078
59.9%	6	10092
52.4%	20	71329
40.7%	5	5729

October 2015

%	No of Hotels	Room Sample
49.8%	27	84710
47.4%	7	59024
56.1%	8	13494
54.2%	12	12192
63.5%	6	9909
48.7%	16	69190
39.3%	5	5611

October 2014

%	No of Hotels	Room Sample
50.3%	28	81889
48.1%	7	56175
48.6%	9	15423
64.7%	12	10291
60.2%	6	10302
48.8%	17	67991
50.6%	5	3596

October 2013

%	No of Hotels	Room Sample
49.6%	27	79334
52.4%	6	51894
40.7%	9	17342
